Shelter Works fiberglass field equipment shelters withstand extreme temperatures and weather while resisting damage from impact, chemicals, water, UV rays, and corrosive environments. They are strong yet light weight and maintain their appearance with minimal maintenance.

All shelters are made to order and built to meet specification. From walls with added reinforcement for mounting heavy equipment to knock out panels and bulk heads to accommodate existing equipment and piping, Shelter Works offers proven solutions for every element of your shelter's construction.

WHY SHELTER WORKS

- Performs In Any Environment
- Easy To Install
- Superior Construction
- UV Resistant
- Low Cost of Ownership
- Energy Efficient
- Graffiti Resistant
- Minimal Maintenance
